

Module 1 – Organizational Leader Personal Leadership Assessment Evaluation Instrument (Paper)

Overview

This assignment aims to evaluate your ability to complete a comprehensive succinct leadership assessment focusing on your personal leadership philosophy as well as your strengths and improvement areas. A personal leadership philosophy is a set of beliefs and principles that influence how you lead and interact with others. It reflects your core values, attitudes, and expectations as a leader. It helps you to evaluate information, make decisions, and communicate your vision and goals. It also allows subordinates, peers and supervisors to understand what you stand for and what they can expect from you as a leader. Additionally, this comprehensive assessment allows you to identify your strengths and their application to cultivating your subordinates as well as identifying your personal leadership improvement areas and develop your targeted improvement outcomes. Grading will be focused on clarity, depth and breadth of discussion utilizing the SEE method.
