

Module 2 – Org Challenge Background Paper

Overview

After completion of Module 2 lesson instruction, **identify and describe a unique challenge your organization experiences as it relates to your group's selected focus area/topic**. The term “unique” is understood as not duplicating challenges listed as example challenges in the Strategic Focus Lab Guide and not duplicating challenges used by other members of your group. Considering this challenge, you will prepare an individual Background Paper addressing the assessment areas identified below. These areas include **background and details, organizational considerations, and how your unique challenge interfaces with policy, strategy, and doctrine**. Finally, you will consider the way the unique challenge is experienced or has the potential to be involved in the Joint Interagency Intergovernmental Multinational (JIIM) environment. The background paper will not exceed 4 pages.

ALL INFORMATION MUST BE UNCLASSIFIED
